T.P.27/12. For Director of Medical Services.

Copy of letter dated 12-10-1951 from the District Medical Officer, South Kanara, Mangalore.

I enclose herewith a resolution of the local bfanch of the Indian Medical Association. One need not be at pains to make out a case for the appointment of an Honorary Surgeon to this Hospital. The cases on the Surgical side have always been more than on the Medical side and now that an Honorary Physician has been appointed, the appointment of an Honorary Surgeon also should follow as sine qua non.

P 94-51 Ro 3149 H 12.5.51

The Surgical cases are ever on the increase. It is needless to augment the paid staff in these days of financial stress and all the more so when local talent - and talent of a high order at that - is available.

I should in duty bound heartily endorse the resolution and request for the early sanction of an Honorary Surgeon. It will not be out of place to mention here that the present Honorary Assistant Surgeon, Dr. M. V. Shetty is practically running the show on the Surgical side.

I have already explained the need for the creation of the post of Honorary Surgeon in my letter dated 12-10-1951.

Regarding the Ophthalmic Department, we are hardly able to allot more than four beds in the In-patients. So all the eye-work is done only in the Out-patient department. In the circumstance I should think the creation of the post of Honorary Ophthalmic Surgeon can be deferred till the new buildings are constructed.

Ref: Government Memo No.60685 M/52-1 Health d/16-12-52.

With reference to the Government Memo cited, I forward herewith an extract of the letter from the District Medical Officer, South Kanara C.No.4/53 dated 4-1-53 for the information of the Government.

2. The question of the creation of the post of Honorary Ophthalmic Surgeon at the Wenlock Hospital, Mangalore was raised during the close of the year 1951 but the Government have ordered that the question may be deferred till the new buildings are constructed - vide G.O.Ms.No.353 Health dated 2-2-1952. As the new buildings are not yet completed the question of the post of Ophthalmic Surgeon may be defferred for future consideration.

3. The Lady Goschen Hospital, Mangalore has only a bed strength of 120 and is in the immediate charge of the Senior Paid Woman Assistant Surgeon employed there, though the whole institution is under the administrative control of the District Medical Officer and Superintendent, Headquarters Hospital, South Kanara. The existing medical staff attached to the Hospital, besides the District Medical Officer is as follows.

Woman Assistant Surgeons	...	3
Honorary Woman Assistant Medical Officer.	...	1

Dr.Umesha Rao, the Honorary Physician of the Government Wenlock Hospital, Mangalore is also allotted some beds in the Lady Goschen Hospital, Mangalore. I do not consider that the appointment of a Honorary Obstetrician and Gynaecologist in the Goschen Hospital is really necessary now and further such an appointment is likely to complicate matters on the administrative side. I do not therefore recommend the proposal for the creation of the post of a Honorary Obstetrician and Gynaecologist in Lady Goschen Hospital, Mangalore at present.

Ref: Your Ref.No.125162-1 E.2 dated 25th December 1952.

I was present at the meeting referred to in the letter. No doubt the resolution was moved. But one of the speakers while speaking about the resolution gave me the impression that he was criticising the Government's method of recruiting the Honorary staff. So I wanted to dissociate myself from the proceedings. Then a number of speakers followed. The speeches were for as well as against the resolution with the result that it was decided to adjourn the subject to another meeting.

2/ In the face of this I do not know how it could be said a resolution had been passed. It is incorrect.

3/ As regards the merits of the resolution, I should say that appointments should be on certain Principles, based on data like the bed strength, amount of work etc. Headquarters hospitals like Coimbatore do not have Honorary Ophthalmic Surgeons and Obstetricians. At present Government Wenlock hospital has only 116 beds and Lady Goschen Hospital 120 beds.in all. If need had been felt the suggestion would have gone from the Superintendent himself.
